THURSDAY, APRIL 12, 1866.

A BILL has passed both Houses of the Legislature, and will probably be signed by the Governor, equalizing bounties. It provides that all veteran volunteers who have not received any local bounty, nor given their credit to localities outside the State, shall be paid $300 by such city, county, ward or borough as received credit for their re-enlistment. School Directors or other proper officers are required to levy taxes for the payment of these bounties. If the veteran has since died, his legal representatives are entitled to collect the money.

THE Cleveland *Herald* asks if we "desire the Courts to be impeached in advance?" By no means. All we want of them is so to act as not to deserve impeachment. We remember the DRED SCOTT dicta. We know, too, that in all ages and countries the Judges have been the most certain and unprincipled tools of despots. All the reading world knows that as well as we do.

THE FISH BILL.—The bill requiring the dams on the Susquehanna and its tributaries to be so changed or altered as to admit the passage of fish, has passed both houses of the Legislature, been signed by the Governor and become the law of the State. It is said that the Tide Water Canal Company refuse to comply with the requirements of the bill, and deny its constitutionality.

THE Legislature will adjourn finally today. It has done a very few commendable things, and many that are highly censurable. The only remedy that exists is in the power of the people; and that consists in selecting men of a better grade for lawmakers. If they will not exert the authority they possess in the premises, they must suffer.

A COMMITTEE sent from the Pennsylvania oil regions to press the reduction of the tax on crude petroleum, has reported. The Report attributes the failure to accomplish anything tangible as largely owing to the inattention of Mr. CULVER, member from the Venango County District.

MR. H. J. RAYMOND is the only Republican member of Congress who voted against the Civil Rights Bill, on its final passage. Oddly enough he soon moved to postpone for two weeks the consideration of Mr. DAVIS's resolution of confidence in the President!

THE COUP D'ETAT.—The Richmond *Whig* quotes the *World*'s remarks about the illegitimacy of Congress, and says: "The South is an inactive but not an uninterested spectator. It seems to us there is a smell of sulphur in the air."

THE New York *Tribune* entered its twenty-sixth year on Tuesday, greatly enlarged and improved. Mr. GREELEY says he shall continue to write for its columns as long as he can write for anything.

THE proposition before the Iowa Legislature to amend the Constitution by erasing the word "white" from the article on suffrage, has passed both Houses.

CITY ITEMS.

Malaria Everywhere.

Rarely has there been a season as fruitful as this of malarious diseases. Not only on the prairies and in the valleys of the West; not merely in all the old haunts of Fever and Ague and Bilious Remittent Fever have these prostrating diseases been unusually virulent; but they have extended to towns and cities never before infested with them, and have even ascended the mountains and attacked thousands of people supposed to have been placed by the laws of Nature above their reach. Hence we are compelled to admit that a fatal element pervades the Universal Air this season, and should at once resort to the only approved preventative of its consequences, Hostetter's Stomach Bitters—a tonic so potent, an anti-septic so perfect, an alterative so irresistable, and a stimulant so pure, that it enables the human system to resist and baffle all the predisposing causes of disease. With the confidence that one clothed in incombustible garments might move among blazing buildings, the man who arms himself against malaria with this powerful *defensive medicine* may walk a fever-scourged district fearless of its insalubrious atmosphere. The intermittents and remittents at present so general in all parts of the country may be but the forerunners of a deadlier scourge now on its way westward from the far East. Prepare the system with Hostetter's Bitters for a successful battle with the nephilim masses of *all epidemics*. Do this in time. Sold everywhere.—*New York World*, Nov. 6, 1865.

Hostetter's Bitters

Are sold wholesale and retail at very low rates at Fleming's Drug and Patent Medicine Depot, No. 66 Market street, corner of the Diamond as-1 Fourth street.

Spring and Summer Goods.

The well-known store of Mr. John Weier, Merchant Tailor, No. 126 Federal street, Allegheny, has been lately fitted up with a new assortment of spring and summer goods. The stock has been well selected, and embraces all the numberless articles needed for gentleman's garments. A large stock of ready-made pants, coats, vests, &c., will also be found in this establishment. His stock of furnishing goods cannot be surpassed. Persons desiring to purchase a good suit of clothes would do well by giving Mr. Weier a call.

PENNSYLVANIA LEGISLATURE.

Special Dispatch to the Pittsburgh Gazette.
HARRISBURG, April 11.

SENATE.

Mr. Graham presented a petition of certain colored citizens of Pennsylvania, asking that they may be allowed to exercise the elective franchise.

The following bills were passed: An act incorporating the Farmers' Land Improvement and Trust Company; an act incorporating the Pittsburgh and Connellsville Manufacturing and Mining Company; an act incorporating the Western Express Company; an act to amend the revenue law of the Commonwealth, with the exception of the section increasing the rate of interest to seven per cent. An act continuing the Board of Military Claims was voted down.

Adjourned.

HOUSE.

General Butler addressed the House for an hour and a half upon the questions of the day, taking issue with President Johnson on his reconstruction policy.

Mr. Ruddiman, of Philadelphia, moved a vote of thanks of the House for the address, which was carried by a party vote—the Democrats voting in the negative.

CONGRESSIONAL PROCEEDINGS.

WASHINGTON CITY, April 11, 1866.

SENATE.

Mr. Sumner offered a resolution, which was adopted, instructing the Military Committee to inquire into the expediency of providing a system of education for soldiers in the army of the United States.

Mr. Wilson introduced a resolution, which was adopted, prohibiting the sale of spirituous liquors in the Capitol building.

Mr. Sumner introduced a petition asking for Congressional aid for Building the European and North American Railroad, to connect the United States with Halifax, which was referred to the Committee on Foreign Relations.

A bill to authorize the Secretary of War to settle the Kansas war claims. Passed.

The Judiciary Committee was discharged from further consideration of the bill for protecting officers of the army from civil suits, a bill for that purpose being before Congress.

The Senate then took up the House Bill in relation to the writ of Habeas Corpus. After some debate the bill was postponed till to-morrow.

The bill relative to the qualification of jurors and writs of error was taken up and postponed till to-morrow.

A bill appropriating two and a-quarter million dollar for the relief of naval contractors, was taken up, debated slightly, and postponed till to-morrow.

The bill organizing an active volunteer system was introduced and referred to the Committee on Military Affairs.

HOUSE.

Mr. Holmes, of New York, presented the resolution of the House Assembly of the New York Legislature, declaring the action of the New York Senators on the Civil Rights bill unpatriotic, and requesting the New York Representatives to vote for the bill notwithstanding the President's veto.

Mr. Warner, of Connecticut, made a personal explanation relating to his absence when the vote was taken on the Civil Rights bill. It was his understanding that he was paired with Mr. Johnson, of Pennsylvania, who was absent on account of sickness. If he (Mr. Warner) had been present, he should have voted most cheerfully for the bill.

Mr. Elliott, of Mass., from the Committee on Commerce, reported back the Senate bill to authorize the issue of American registers to the steam vessels Michigan, Dispatch, and Wm. K. Miner, with an amendment applying to a dozen other like cases.

The amendment was agreed to and the bill passed.

Mr. Washburne, of Illinois, and Mr. Washburn, of Massachusetts, and Messrs. Delano and Thornton, presented a large number of adverse reports from the Committee of Claims, which were laid on the table.

Mr. Driggs, from the Committee on Public Lands, reported back the bill to establish a Land Office in the Territory of Idaho, which was considered and passed.

Mr. Schenck, from the Committee on Military Affairs, reported back, with a substitute, the bill to regulate the pay of the army, and asked that it be postponed, and made the special order for this day fortnight. It was so ordered.

Mr. Bundy offered a resolution which was adopted, declaring that Wm. Mercer, of the County of Ross, State of Ohio, had furnished seven sons and one grand-son to the army of the United States during the late rebellion, some of them minors, and were killed or died in the service, and that Wm. Mercer and his wife were aged and infirm, and without the necessary means of support themselves in their old age, and instructing the Committee on Invalid Pensions to inquire into the propriety of placing the name of Wm. Mercer upon the pension rolls.

Mr. Davis, of Massachusetts, offered a resolution, which was adopted, directing the Judiciary Committee to inquire whether any legislation is necessary to make the shares in National Banks liable to attachment and levy of execution under State law for the payments of debts of the owners.

Mr. Eckley, of Ohio, offered a resolution, which was adopted, instructing the Committee on Military Affairs to inquire into the expediency of allowing three months extra pay to the returned prisoners who survived the date of the release of Texas, the same as other returned prisoners are allowed.

Mr. Rice, of Maine, offered a resolution reciting that a morning paper announced the fact that the Manhattan Club of New York proposed to give to James Brooks a public dinner next Monday, and that Messrs. Stockton and Voorhees were expected to be present, and resolving that the Chairman of the Committee on Elections, and such other members of that Committee as may be invited, shall be granted leave of absence to attend such meeting and dinner. (Laughter.)

Mr. Harding, of Kentucky, wanted to move an amendment, but Mr. Rice, of Maine, withdrew the resolution.

Mr. Ingersoll rose to a personal explanation, and stated that he was represented in the Baltimore *American* as having been engaged on the other day in getting a dilatory motion to prevents vote on the Civil Rights bill. He disclaimed doing so, leaving the credit of such motions to his friend from Wisconsin.

The Speaker stated that the correction of the mistake had appeared in this morning's Baltimore *American*.

The House then proceeded as the business of the morning hour, being the unfinished business of the morning hour of yesterday, it being the bill reported from the Committee on Military Affairs for the relief of Paymasters in the army. A substitute for the bill was obtained in the report of yesterday's proceedings. The bill gave rise to much discussion.

The House refused to second the previous question, when the morning hour having expired the bill went over till to-morrow.

Mr. Bidwell, from the Committee on Agriculture, reported back the bill to amend the Agricultural College act, which was under discussion yesterday. The bill was then passed by a vote of 86 to 28.

The House went into Committee of the Whole on the bill to reimburse Missouri for equipping militia. It appropriates $6,775,000. The Appropriation Committee reported an amendment reducing the amount $5,000. After considerable debate several amendments were made, by which the Board of Commissioners to examine into the facts of the case were provided for. Other amendments were made, and subsequently, as amended, the bill passed.

Washington Mastery---Reorganization of Postal Service---Fishery Question.

NEW YORK, April 11.—The *Herald*'s Washington special says: Col. A. H. Markland, special mail agent, departs to-morrow on a trip to reorganize the postal service in the Mississippi Valley. Col. H. is empowered to make new contracts to divide the service from point to point on the river, where it can be done advantageously, and to appoint loyal men who will act in postoffices as if appointed from the Department. Postmaster General Dennison is determined to perfect postal arrangements in the Southern Mississippi Valley as speedily as possible.

The *Tribune*'s Washington special says: A Mr. Stevens will appear before the Reconstruction Committee to-day.

The Senate in executive session yesterday, failed to confirm Lewis D. Campbell as Minister to Mexico.

The colored people of the District of Columbia celebrated the 16th inst. as the anniversary of emancipation in that District.

The *Tribune*'s Washington special says: It is understood that the Government has sent one or two armed vessels to the fishing grounds on the coast of the British Provinces to protect our fishermen in their rights as they have been violated by the Provincials since the cessation of the Reciprocity Treaty. The British Government has expressed a willingness to allow everything appertaining to the Treaty of Washington to lapse on the basis existing prior to the existence of the Reciprocity Treaty, which confers our vessels to fish anywhere within a marine league of the shores.

Testimony of A. H. Stephens---Amnesty Proclamation---Reply Tax Bill.

NEW YORK, April 11.—A Washington special states that Alexander H. Stephens was examined before the Reconstruction Committee this morning. He expressed the opinion that there is a general acquiescence among the Southern people in the idea of perpetual Union, but that they will never agree to give equal political rights to the negroes.

It is said that a proclamation of amnesty is to be issued by the President in a few days.

The Committee of Ways and Means have not yet agreed on the free list of the new revenue tax bill.

Trotting on Fashion Course.

NEW YORK, April 11.—Yesterday afternoon, the first trotting match for a sweepstakes of $1,200 came off at the Fashion Course, Long Island. Dexter, Doctor Herring, named Lady Jones, won the heat and race in 2:31. Next Thursday the first purse will be trotted for over the Fashion Course.

Election in Jersey City, N. J.

NEW YORK, April 11.—In the election yesterday in Jersey City, Cornelius, Democrat, was elected Mayor by 1,000 majority. The Aldermen are equally divided between the Republicans and Democrats. Hudson City and Hoboken went Democratic. Bergen elected the whole Union ticket.

THE FENIAN MOVEMENT.

Great Excitement in Canada.

POINT OF ATTACK, NEW BRUNSWICK.

British War Steamers Arriving.

FENIAN MEETINGS IN EASTPORT, ME.

NEW YORK, April 11.—The *Herald*'s Toronto special says the excitement is very great here this afternoon, owing to a general search of suspected premises. The only contraband of war found were four revolvers in Shea's house, a rusty musket and two bayonets in Murphy's. Shea's is the only arrest made in the city. His arrest was caused by an intercepted telegram, cautioning him to look out for himself and destroy a certain box, which a diligent search did not discover.

The Government, on Sunday, received information that about seventy Canadians had left for Portland, all armed. The authorities now believe that there was no raid on New Brunswick intended, but that it was intended that the Portland dispatches detailing the departure of the Fenians was dictated by O'Mahoney, and that their reported departure was merely to give color to the belief that New Brunswick was the point aimed at, and that under cover of this movement, Sweeney or O'Mahoney would make a desperate raid upon Canada, probably with the Chicago gunboats, and land his forces. An attack is daily looked for.

The Cornwall prisoners have retained ex-Attorney General McDonald to defend them, and their preliminary examination comes off to-night or to-morrow forenoon. They are still under guard, and will probably be examined to-morrow.

TORONTO, C. W., April 11.—The examination of the Fenians arrested at Cornwall begins to-day. Hon. John S. MacDonald has been engaged for the defense. The *Globe* this morning has the following: There is no longer any doubt that O'Mahoney is concentrating a force near the New Brunswick frontier. This is clearly in violation of the neutrality laws of the United States, and the Washington authorities must speedily take action on the subject. We have no fear now that the American Government should act hurriedly. In a free government time must be allowed for talk, and it is not well for any government to oppose a movement which commands a measure of popular sympathy, without clear proof that the law is being broken, but the marching of armed men towards the frontier is an act of war, which the American Government must suppress, if they intend to do their duty towards their neighbors.

NEW YORK, April 11.—The *Commercial*'s Washington special says: Sir Frederick Bruce professes to have received information that leaves no doubt as to the intention of the Fenians to attack some portion of the British provinces. It appears certain that a large numbers of men are gathering on the frontiers, and it is alleged that their object is to concentrate and capture some place which will be hastily entrenched and defended. In that case it is expected that reinforcements and aid from the United States and British Provinces will flow in, and enable them to accomplish their object. The situation is deemed sufficiently alarming to call forth a proclamation from the President against any invasion of the neutrality he has, and it will probably appear. Previous remonstrances have been received from the Canadian authorities. It is understood that the United States Marshals on the border towns has been directed to prevent any invasion.

EASTPORT, ME., April 11.—The Fenians have hired the Town Hall for three days to hold meetings. There is an open session to-night.

There is another large British steamer off Campo Bello with a large force of men ashore at work.

A number of Fenians left on a sailing vessel last night secretly.

A large steamer, with the American flag and private signal, has just gone up the river towards St. Andrews.

SECOND DISPATCH.—The excitement continues. The Fenian public convention is in session. British war steamers are continually arriving and patrolling the harbor and St. Croix river.

Fifty Fenians have left in a schooner. Their destination is unknown.

A suspicious steamer, showing the American colors, has just passed into St. Croix river.

There are Fenians arriving continually.

Executive Pardons---Encouragement of Immigration---Government Sales---The Cattle Plague.

WASHINGTON, April 11.—Warrants for pardon were issued from the Attorney General's Office to-day, by direction of the President, for forty individuals, the majority of whom are residents of Georgia, Louisiana and Texas. A few were pardoned under the first exception, but the majority of them under the twenty thousand dollar clause.

General Augur has been notified of the escape of Oscar Mankin, one of the Alexandria rioters, from the Alexandria jail, where he was awaiting trial for murder. His escape is attributed to the negligence of a prominent officer.

The Secretary of State has sent a letter to Representative Washburne, of Illinois, Chairman of the Committee on Commerce, showing the necessity of the passage of the bill amendatory of the act to encourage immigration. The first section, placing restrictions upon visiting passenger vessels in the port of New York, the Secretary explains is to assure the emigrants of protection to person, property, and cautions them against the devices of sharpers. In the second section, the provision for summary proceedings against persons illegally restraining immigrants on ship board, can only prevent the abuses which now usually go uninvestigated on account of the transient stay of the wronged. It is stated that every passenger vessel arriving in New York since the establishment of the United States Emigrant office, without exception, has violated the passenger acts of 1853 and 1860. Other outrages have been committed. The provisions of the bill are for the strictest, summary and severe punishment of all offenders.

The Quartermaster's sales of animals since May 1st, 1865, number 13,000 horses, and 10,295 mules. Total, 213,183 animals, for which the government has received the sum of $11,621,022.

The President has not yet appointed a customs collector for the port of New York.

Consul Wilson, at Antwerp, writes under date of March 16th to the Governor of that province, asking information relative to the prevalence of the cattle plague, and the means taken to prevent its spread. The letter in reply states that the plague had not been observed since the 25th January, but has just broken out again in three parishes, in one of which it was necessary to sacrifice one hundred and thirty animals in a distillery stable, fifty-five of which were found to be diseased. This fresh outbreak is believed to be starved out.

Banishment of Cows and Cow Stables from New York City---Diseased Cattle---Alarming Developments.

NEW YORK, April 11—Dr. Percy made some remarkable statements before the Health Commission yesterday, concerning the banishment of the cows and cow stables from the city. He said the animals were nearly all suffering from pleuro pneumonia, and the disease is contagious. A gentleman of Boston, a few days ago, imported three animals that contracted this disease, and the State of Massachusetts lost one hundred thousand cattle which were infected from these three. A bull was sent to Holland to the Cape of Good Hope, and from that one animal millions were infected and died, while business was almost destroyed and starvation prevailed.

Mr. Lindley said that a dead animal could be seen all over the country. A bull was sent from England to Australia, and notwithstanding the passage, the animals which came in contact with him, in every case, were infected; but as they were immediately killed, the disease was finally mastered. This disease exists here in the stables, and if you bring them up the owners will sell. They will go abroad, and it may be spread to infect the cattle in every State in the country. Dr. Letheby said that when the disease has become chronic, persons who have eaten the meat of cattle killed while suffering from this disease, have experienced no bad effects. When it is acute it produces convulsions and those who eat it. Farmers in Duchess county would as soon take small pox into their homes as cattle from these awful, spiritless into their barn yards. If they are sold, the disease will be communicated. It is a fact that trichinæ has been found in beef, and traced directly to the swill milk stables of Long Island. It exists in pigs and is found wherever they are kept in filthy sties and fed on swill. Rats are found wherever there are pigs, and they become filled with trichinæ, which devour the excretions of the rats, and they take the disease. Cases of this kind I have personally traced to Newton.

Gen. Grant Before a Justice---General Land Office Reports.

WASHINGTON, April 11.—Gen. Grant to-day acknowledged the service of a warrant for fast driving, and appeared before a Justice of the Peace and paid a fine.

Reports received at the General Land Office show that over 60,000 acres were entered at the Land Office of Broomeville, Missouri, west settlement and part east, and at La Crosse, Wisconsin, 7,436 acres, and at Topeka, Kansas, 5,000 acres; in all 65,162 acres.

In the city quite a number of planters and agents are hiring freedmen labor on plantations in Tennessee, Mississippi and other southern States. Among them is one from the latter State who wishes to hire two hundred and fifty, and up to Saturday night he had engaged nearly two hundred, and a lady of the former State will engage quite a number. It is estimated that about four hundred and fifty were hired last week.

Radical Rejoicings.

NEW YORK, April 11.—The Republicans of Greenpoint, Long Island, held a glorification meeting late on Monday night, over the final passage of the Civil Rights Bill, and at midnight fired a salute of one hundred guns. A salute of one hundred guns was fired from Fort Greene, Brooklyn, last evening, the occasion of the passage, by Congress, of the Civil Rights Bill over the President's veto.

Senate Confirmations.

WASHINGTON, April 11.—The Senate has confirmed the following named Brigadier Generals to be Major Generals. By brevet—Thos. H. Neill, Benj. J. Spooner, Morgan H. Christer and Martin L. McMahon.

Fenian Centre Resigned.

PHILADELPHIA, April 11.—Mr. John Hasson has resigned the position of Centre of the Philadelphia Circle of the Fenian Brotherhood. His successor has not yet been elected.

LATEST FOREIGN ADVICES.

Arrival of the Steamers Persia and Asia.

GERMAN DIFFICULTIES INCREASING.

Military Preparations.

ENGLISH WAR VESSELS COMPLETING.

NEW YORK, April 11.—The steamer Persia from Havre of the 28th, via Brest on the 31st of March, arrived this morning, bringing Paris papers of the evening of the 30th, from which we extract the following late news.

The Provincial correspondence of Berlin of the 26th, says that in view of the danger to Prussia by the concentration of Austrian troops, it is supposed that orders have been given which will enable Prussia to successfully resist any attack.

A Berlin telegram states that measures touching 8fficers were taken at the meeting of the Council on the 27th.

A dispatch from Vienna of the 28th, protests against the statement of the Prussian journals, and says there has been no rendezvous of a corps de armee, no purchase of horses or no levy of troops on the part of Austria.

The Imperial Government has omitted to take measures which are justified by the language of Prussian sheets, for it would not needlessly increase the burdens of the finances.

HALIFAX, April 11.—The Asia, from Liverpool on March 21st, via Queenstown April 1st, arrived this afternoon.

All the markets were closed, and there is no later commercial news than that by the steamers of the 30th and 30th.

The steamship Hibernia, from New York, arrived on the 31st.

The German difficulties are still increasing, but no active hostilities have occurred. Military preparations were progressing actively. General Benedek had been appointed the Austrian Commander-in-Chief.

LATER.—The London Stock Exchange was the only market open on the 31st. The closing quotations were, Consols, 90 5-8@90 3-4; U. S. 5-20's, 70@71¼; Erie Shares, 35@36½; Illinois Central Shares, 79¾@80.

The foreign news, political and general, is very meagre.

Liverpool, March 31.—Evening.—The German advices continue warlike.

Count Von Bismarck had a long conference on the 29th with Count Karalgi, the Austrian Ambassador to Berlin.

Orders had been issued to place three divisions of Prussian infantry, (the whole army corps), and seven other regiments upon a war footing. It was also stated that orders had been given that the Prussian war vessels at Kiehe be prepared for active service.

The Vienna *Post* asserts that five Prussian army corps have received orders to hold themselves in ready for active service.

The Vienna journals say that the Western Great Powers intend to present identical notes at Berlin, deprecatory of war. It is stated that upon such a convention, but a formal treaty of alliance has been concluded between Italy and Prussia.

Von Beust-Mareck is said to have issued a circular dispatch to the Austrian Ambassadors at the Courts of the Great Powers, directing them to protest against the extraordinary armament of Austria.

A Florence telegram says that considerable armaments are stated to be in course of preparation in Italy.

The editor of the Paris *Opinion Nationale* states that his journal that he had received a visit from Stephens, the Head Center, who announced his approaching departure for America.

Paris, March 31.—Bourse heavy. Rentes close 1 at 67f, 40c.

GREAT BRITAIN.—Advices from Plymouth say that orders have been received there to expedite the preparations for fitting out several vessels. The conclusion is drawn that they are intended for the Gulf and river of St. Lawrence, and the West Coast of North America.

The Anglo American Telegraph Company, New York, New Foundland, and London Telegraph Company have contracted with the Telegraph Construction and Maintenance Company of London, for the manufacture and submersion this summer of two cables; one across the gulf of St. Lawrence from New Foundland to Cape Breton, and the other between Prince Edward's Island and New Foundland, and for the repair of the present cables, so as to have four cables for the prompt transmission of all messages between the Atlantic cable and the United States.

The Paris correspondent of the London *Times* writes that Prince Napoleon has left Paris for Italy, after having several interviews with the Emperor. It is supposed that he is entrusted with a mission to Victor Emmanuel which could not well be confided to any inferior personage, and has reference to the state of affairs between Italy and Austria.

The correspondent adds: "I find that the persons who up to the present moment have refused to believe that anything likely to disturb the peace of Europe would occur this year, now are now far less incredulous. Their views of the future are gloomy enough, and they think that the conflict between Austria and Prussia all but certain."

The London *Times* of the 30th remarked editorially that there was too much reason to fear that the storm about to be broken by an almost unnecessary war. But on the following day the *Times* remarked: "We cannot persuade ourself that Austria and Prussia, both so deeply involved in financial embarrassments, will speedily plunge into the horrors of a ruinous war. Austria must be prepared for any extreme resolutions that might eventually be taken by Prussia."

Vienna papers declare that Austria will not take the aggressive.

It is reported from Vienna that the Commissioner of the Eastern Empire is making an investigation of the numerous frauds along the line of the Adige, and that the soldiers of the Reserve on furlough have been called in.

A Berlin journal says that the passenger cars were in "cahoot" to make the strike dark, so that people would be compelled to ride? We don't believe the old lady's theory. Hence we again—and for the seventeenth time—call on the proper authorities to see to it that the gas lamps along Rebecca street are kept clean and all lighted every evening when the moon does not shine, to make safe part of the night. While on this subject it may not be amiss to say that the Street Commissioner has not yet had the pavements repaired, though we will do him the justice to say that he has removed the mud. Hope he will not become weary in well doing, and that ere long some of those six-inch pavements, close by the frog ponds, will be widened for at least as many feet.

Amusements.

OPERA HOUSE.—Miss Peyser appeared last evening to a select audience in the play of "Lucie, the Persecuted," eliciting considerable applause. She is a pleasing actress, a good leader, but seemingly wanting in vigor and tone, which may be accounted for by her long absence from the stage. We have no doubt this objection will be overcome ere long. The play is of the sensational school. It will be repeated this evening.

PITTSBURGH THEATRE.—Mr. Brougham fully sustained his high reputation, as Captain Cuttle, in "Dombey & Son," last night. This evening he appears in the side splitting farce of Jenkins Miscawber, in "David Copperfield." No one who sees him in this personation will have occasion to regret it. We regard it as his most amusing character. He will also appear in his own extravaganza entitled "Poca-nontas."

Eligible Site for a Manufactory.

We direct the special attention of our readers to the advertisement of the First Reformed Presbyterian congregation of this city, which will be found in another column. This congregation offer for sale their large lot, corner of Plum and Cherry alleys, upon which their house of worship and janitor's residence now stands. The lot is located almost in the center of the city, and would make an eligible site for a foundry, engine house, packing house, &c., &c. As it will only be in the market for a short time, immediate application should be made.

Purifying Remedies.—H. T. Button, vendue salesman, Clifton, C. W., communicates to the *Post*, of this city, the following remedies against the prevalence of pestilence by an unwholesome atmosphere, which are of practical importance just now, when the dread morbific cholera threatens to visit us. "Open a hole—say about one foot square, near the bottom of your kitchen chimney. This will cause a strong draft into the flue, thoroughly ventilating the basement, and preventing the bad air rising into the rooms above. To ventilate your drain, cess-pool or closet, connect it by a pipe with a three or four inch pipe with a chimney—that is, where there is a flue being the best. In all cases where practicable, there should be an open flue in every room of a dwelling."

Eastern Pennsylvania Penitentiary.—The Thirty-seventh Annual Report of the Inspectors of the Eastern Penitentiary states that the whole number in confinement during 1865 was 556, of which there were 230 white males, 8 white females, 4 mulatto males, 3 mulatto females, 1 Indian male received; 137 white males, 12 white females, 6 mulatto males, 2 mulatto females, 5 black males and 1 black female discharged, leaving in the penitentiary on the first of January, 1866, 418 prisoners, of which number 307 were white males, and 14 white females; the remainder were colored. The whole number in confinement during the year, by expiration of sentence, 41 were pardoned, 9 died, and 1 by reversion of sentence.

Quite a Success.—The fair and festival being held in the sunday school room of Trinity church for the benefit of Grace church, Mount Washington, is proving quite a success. It is to continue until the afternoon and evening. A fishing pond has been fashioned which creates considerable amusement, each disciple of Walton paying ten cents for a "nibble" and the privilege of fishing for a prize, the capture of a pocket or something else. The grounds in front of the church are brilliantly illuminated, and we are pleased to learn that the festival has thus far proved a grand success.

Arrested.—Col. H. Biddle Roberts, senior aid-de-camp on the staff of Gov. Curtin, and one of the Commissioners of Allegheny County Military Department, was yesterday, at the court house, arrested from further duty. The arrest was made by Lieutenant Colonel Forrester by order of Gen. Reynolds, and Col. Roberts became in this city to-day on the peaceful of the law.

CENTENARY MEETING.

First Day's Proceedings---Some Excellent Addresses of College Presidents---Letters on the Subject---Pastors' Meeting---Pittsburgh Centenary Meeting---Pittsburgh Female College---Evening Social Meeting.

FIRST DAY.

The Pittsburgh M. E. Conference, at its recent session in Washington, Pa., directed the Centenary Committee, composed of one minister and one layman from each District, making in all nineteen members, to make suitable arrangements for observing the Centenary of Methodism within the bounds of the Conference, and also to consider the objects for which local contributions are to be made. In accordance with the appointment of Rev. Dr. I. N. Baird, of Sharon, Ohio, chairman, the committee assembled in the M. E. Church on Grant street, Pittsburgh, Monday afternoon, at three o'clock. Rev. Dr. Baird in the chair. The meeting was opened by Rev. Dr. James Drummond with singing and prayer. Rev. Dr. Coe, after which the Secretary, Rev. Dr. Miller, read the call of the meeting. The Secretary then read the names of the members of the committee, which were found to be all present, with the exception of Rev. Dr. C. A. Holmes, Rev. W. H. Drummond, D.D., Rev. Dr. Johnston, Va., Rev. Dr. Clark, Canton, O., Rev. J. M. Crary, Rev. Dr. Fitzgerald, O., Rev. E. Shafer, M. D., of Elizabeth, Pa., and S. Battelle, of Newport, Ohio.

The meeting of the Committee held in Pittsburgh, December 26, 1865, were read, after which the President stated that the present meeting was intended for a free interchange of views on the members of the Committee, and to hear statements from persons present not members of the Committee—but interested in the objects contemplated by its organization. Dr. Ferguson, President of the Pittsburgh Female College; Rev. Dr. Loomis, President of Allegheny College at Meadville, Pa.; Rev. Dr. Harrison, President of Mount Union College, Ohio; Rev. Dr. Dyer, Ohio, and Rev. R. J. Taylor, President of Kenyon Seminary and Institute, Beaver, Pa., severally addressed the Committee in behalf of their respective institutions.

The second resolution of the action of the Committee, at its meeting of December 1865, was read as follows: That our ministers and members in Pittsburgh and vicinity be requested to place their subscriptions to the Centenary Fund in the hands of the Stewards of their respective churches on or before the first Sabbath of April, 1866, and that the Stewards be requested to report the same to the Pittsburgh Centenary Committee, at its meeting on the first Monday evening in April, 1866.

GRAND PUBLIC MEETING.

Rev. Dr. Nesbit, editor of the *Christian Advocate*, in connection with Rev. Dr. Miller, who was unable to be present at the meeting, addressed the audience for the Pittsburgh Conference, at the recent session. In consequence of the absence of Dr. Miller, the general centenary meeting was held, as above, Rev. Dr. Baird presided. Immediately after devotional exercises, by request, Rev. H. Millard, of Meadville, Pa., offered "Wesley Hymn" in a feeling manner. Addresses were then delivered by Rev. Dr. C. A. Holmes, Rev. W. H. Loomis and Rev. H. Miller. At the close of the addresses, Rev. Dr. Baird stated that without any business, and adjourned to meet next morning at eight o'clock.

SECOND DAY---MORNING SESSION.

The Centenary Committee met at 8 o'clock, A. M., Rev. Dr. I. N. Baird in the chair. Devotional exercises conducted by Rev. J. D. Vail.

The motion under consideration yesterday was taken up, and after being discussed by Rev. Dr. Baird, Rev. Dr. Drummond and Revs. Dr. Miller and J. M. Carr, was adopted as amended.

The fourth resolution of the action of Dec. 26, 1865, was amended to read as follows, viz: That the institutions for the erection of new churches and parsonages, and the purchase of real estate, and the payment of existing debts thereon, be counted as Centennial contributions; and also the erection of churches, parsonages, and payments of debts already incurred for the extension of our work and the comfort of our ministers, they be at once undertaken.

The following resolution was adopted: *Resolved*, That the agents operating in behalf of any Centennial enterprise are required to present a complete and detailed account of all moneys and other things they may receive, to the Committee from which they are derived, as well as the object to which they are paid, and report to the chairman of this committee by the 1st of February, 1867.

The following resolution was re-affirmed: *Resolved*, That each society report to this committee at each quarterly conference for Centennial purposes, and the particular object to which it has been applied.

That a suitable blank book be procured for the use of each charge; that in this book shall be entered each contributor and the amount of his contributions to both Connexional and Local funds; that a copy of this record be forwarded to the Annual Conference for preservation in a suitable form.

It was moved that each preacher in charge provide the book for his charge.

Dr. Holmes offered the following resolution: *Resolved*, That the two members of committee representing each District, in connection with the Presiding Elder of their District, and such other persons appointed by him, be a Committee to arrange for suitable centennial services within their District during Conference next, and that the Presiding Elder act as chairman.

On motion, all unspecified collections, not exceeding in amount $25,00 were directed to be set apart for the erection of a suitable building or buildings at Pittsburgh for a Book-concern and other purposes; provided, that the citizens of Pittsburgh and vicinity shall raise $25,000 specifically for that purpose.

It was moved that all moneys for Connexional Fund, collected, be retained by the respective charges until the next called meeting of this Committee.

AFTERNOON SESSION.

Committee met at 1 o'clock, Rev. Dr. I. N. Baird, presiding.

After devotional services, conducted by Rev. J. M. Carr, on motion, a committee of three was ordered to prepare the proceedings of the committee for publication, and to attend to such other matters as may devolve upon them. Rev. Drs. I. N. Baird and C. A. Holmes and J. C. White, Esq., were appointed said committee.

On motion, the action of the committee in reference to the appropriation of the unspecified funds to the building of an edifice in Pittsburgh for the Book Concern, was reconsidered, and the following was passed in its stead:

Resolved, That the unspecified collections be set apart for the creation of a permanent fund for the publication, within its own Conference limits; that the committee hereinafter provided for, present to the next meeting of this committee a plan for the management and investment of the said Book Concern fund; and that the special attention of our ministers and members be called to this fund, and generous donations to it be solicited.

On motion, the pastors were requested to approve of the recommendation of the Central Committee concerning the Children's fund, but do recommend that measures be taken in all our charges to call out the Sabbath Schools.

The publication of Dr. Nesbit's Memorial sermon was referred to the committee of publication.

On motion, the pastors were requested to insert the names of every member of their charge in the book prepared for contributions, and inform their members of that fact.

Adjourned to meet at the call of the chairman.

THANKS.

Thanks were tendered to Rev. J. S. Bracken, pastor of the church; Prof. Taylor, President of Beaver Seminary; trustees of the church, and also to the citizens for entertainment.

PERSONAL.

Rev. J. Williams, of Allegheny; Rev. T. McCleary, of Blairsville, Pa.; Rev. D. L. Dempsey, of Beaver, Pa., chairmen of District Committees, were present and participated. Revs. W. H. Lough, of Brooklyn; J. Monroe, J. K. Miller and J. S. Bracken, of Beaver; Dr. J. Murray, of Bridgewater, Pa., and Prof. Davenport, U. S. Assessor of that District, were also present as visitors.

EDUCATIONAL.

A GOOD SUGGESTION.

It has been thought so absolutely impossible to gather grapes of thorns or figs of thistles, that few persons have ventured to test the practicability of the accomplishment by experiment. The New York *Herald*, of Tuesday last, furnishes evidence that if achievement is still not to be expected, something closely analagous to it is attainable. That journal talks solid sense to the Southern rebel leaders. It calls "upon the sober, sensible, thinking and responsible men of the Southern States to take these fire-eating secession radicals in hand, and turn them from their career of madness and folly; otherwise conservative men of the North will plead in vain for a Congressional policy of liberality and confidence toward the excluded Southern States."

The progress of the war brought about certain results. Some of them, and of chief importance, were not contemplated by the Government or the masses of loyal population when the struggle commenced. A mighty tide, controlled and directed by an inscrutable Providence, swept over the nation. Vain is the endeavor to go back and restore all the old foundations. If the attempt shall be made, it will not simply be unsuccessful, but will entail fresh calamities.

Rational Northern men do not ask the Southern people to rejoice over their own defeats and humiliations, nor do they expect them, of a sudden, to repudiate all their old ideas. But certain facts exist. The Union has not been dissolved. The fealty of all persons who claim to exercise the rights of citizenship is due to the National Government. Slavery has been abolished. New relations have been established between the whites and the blacks in the revolted States. Fresh social and economic systems have been called into being. The welfare of the Southern people, equally with the welfare of the inhabitants of other sections of the country, require that these altered conditions be recognized and conformed to. This is all the radicals in Congress and out demand or wish. When ever throughout the South proper feeling shall be evinced, the conservatives will have no need to plead with the radicals for a liberal policy. No men are more anxious to heal the wounds of the war than they. But they object to a deceitful healing, with the old disease liable to break out again with additional aggravations.

RECONSTRUCTION OF BRITISH AMERICA.

For some time past the British Provinces have been agitated about the reconstruction of their governments. A cause of expense rather than a source of profit to the mother country, the British Parliament is anxious to have them set up business for themselves, so to speak, and pay the cost of their own keeping. Intimations have been thrown out that if the Provinces would accept independence it would be freely accorded to them. No willingness has been evinced to accept the offer. The connection with England is profitable to the Colonies, and hence they are in no haste to dissolve it.

As a substitute for separation a plan of confederation has been devised; the Confederacy to be presided over by a Viceroy, in the person of one of the Queen's younger sons. Of course population is made an element of power in this scheme; and hence the smaller provinces feel insuperable objections to engage in it. Their relative consequence would be diminished.

The Governors favor the plan, while the popular majorities in the local Parliaments oppose. In two or more of the Colonies the Ministries have resigned, because not sustained by the representatives in pressing the views of the Governors. And this at a moment when there are reports, seemingly authentic, of a Fenian invasion. Either the provincials must hold the invaders in supreme contempt, or else their exasperations over domestic politics are hurrying them to the extremity of presumption.

The Letter to Gen. Geary on the Railroad Question.

EDITORS GAZETTE:—As one of your readers I wondered why you did not publish the letter signed by many of our citizens, propounding certain interrogatories to General Geary on the very important question of Railroad legislation. You gave your reasons in Tuesday morning's paper for not publishing it. Whether you are altogether justifiable in withholding such an important document from your readers on the grounds you name, is to my mind somewhat doubtful. It is not my intention to discuss that point with you. You will not perhaps be surprised that the letter was not sent to the *Gazette* for publication, when you are informed that the letter in question emanated from a gentleman who has the credit of *owning and running the "Commercial."* Besides, this same gentleman signed a call gotten up by N. P. Sawyer and others for a meeting to sustain President Johnson, and his name appeared as one of the Vice-Presidents of said meeting. Of course the "radical" *Gazette* would be ruled out of such company. Still, I think you ought to have published the letter and General Geary's answer in full.

FOURTH WARD.

[The rule among newspapers is well-known—that where a matter of this kind is furnished exclusively to one paper, it is, from that fact alone, excluded from the other papers. This is the only rule newspapers have for their own protection. Persons who wish to have matter furnished by them appear in all the papers, must furnish it to all, at the same time, or be content to see it appear only in the paper or papers to which it is exclusively furnished. No paper, with any self-respect, will copy from another paper what should have been given to it at the same time it was given to others.—EDS. GAZ.]

IN the House, on Tuesday, Mr. MOOREHEAD offered a resolution increasing the duties on all imported articles fifty per cent., for six months from that date. On motion of Mr. HOOPER it was laid on the table, by the emphatic vote of 107 to 49. This movement of Mr. MOOREHEAD was entirely his individual action, and did not proceed from the Ways and Means Committee, of which he is a member.

IN the State Senate an amendment to the Appropriation Bill, granting $25,000 to citizens of Adams county for war losses, has been voted down.

PREACHING VS. PRACTICE.

A day or two ago we chronicled the President's circular directing the Heads of Departments to discriminate in their appointments in favor of soldiers and sailors who have served meritoriously. The following commentary on it is furnished:

John Gibson, the late Postmaster at Chillicothe, Missouri, was appointed by Mr. Lincoln because he entered the army after he was forty-five years of age, and with his two sons, served through it. The rebels burned his house and utterly destroyed all his property, leaving him a beggar. He has been lately removed by the express direction of President Johnson, at the request of Frank Blair, and Wm. Noell, of Missouri, without the knowledge of Mr. Ben. Loan, the member from Chillicothe district, and against the remonstrance of all the Union men of the county, and in his place the most objectionable Copperhead in all that region was appointed; and in the Blair and Noell application filed to secure the removal, it was distinctly understood that such removal would go very far to break down radicalism in that section. It is believed that the removal was insisted upon by the President against the wishes of Postmaster General Dennison.

A Washington special to a western journal hits keenly after this fashion:

It is rumored on the street to-day that the husband of Mrs. Cobb, who holds a position in the Treasury Department, has been removed in accordance with the President's circular, and a soldier appointed in his place. The rumor lacks confirmation.

A PITTSBURGHER AT WASHINGTON.—A Washington special to the Chicago *Tribune* says: "After the adjournment following the vote on the passage of the Civil Rights bill in the House, a man named SAWYER, of Pittsburgh, appeared on the floor, and walking up to Judge KELLEY's desk, began to abuse the Judge for his vote, putting his fist in the Judge's face, whereupon Mr. KELLEY made a lunge at him, when a member sprang between them, and the Capitol police arrested the rowdy. He, with other Pittsburgh men, are here for the purpose of securing aid in a project to establish a JOHNSON paper in that city."

THE younger son of the great Patrick Henry, died in Floyd county, Virginia, in circumstances of great destitution. The Legislature of that State was appropriating thousands on a marble statue of the father at the very time the son was begging his bread.

The father certainly merited the marble. It may be the son was not deserving of bread.

THE BILL to reimburse Pennsylvania for certain expenses in raising troops during the war, has passed both Houses of Congress. Gov. CURTIN deserves special credit for the perseverance with which he has pursued this matter and brought it to a satisfactory conclusion.

THE BILL to establish a uniform system of Bankruptcy was defeated in the House. The matter was reconsidered on Tuesday, and the bill again defeated. That would seem to make a finish for this Congress.

Suicide of a Beautiful Woman—Disappointed Love the Cause—The Lover a Married Man—Coroner's Jury.

It has been seen for the past several weeks, by the neighbors residing in the vicinity of 62 Court street, opposite the market house, that a man by the name of George Steifel was very partial in his attendance upon a young lady in that house named Elizabeth Webb, the daughter, we believe, of the proprietor of the aforesaid house. The attentions of Mr. Steifel did not please the father of the girl and he forbid Mr. Steifel his house, and yet he heard subsequently that his daughter still kept company with him. Two or three days ago a man named Jackson informed Mr. Webb that Steifel was a married man; that his family lived at 669 Vine street, and that he, Steifel, was employed at Schdeier's grocery, on Court street, upon which representation, on Saturday last, Mr. Webb positively forbid his daughter from having anything more to do with him. The consequence was that Miss Webb proceeded to procure a dose of landanum, swallowing which caused her death. Coroner Carey held an inquest last night at nine o'clock upon the body, the jury returning a verdict that the deceased came to her death by laudanum administered by her own hands, and, further, that the attending physician was culpable for the woman's death for not applying the requisite restoratives in such cases.—*Cincinnati Inquirer.*

Duel in Mississippi.

A correspondent of the New York *Tribune*, writing from Vicksburg, Miss., March 26th, says:

"As I was going to my gin-house last Saturday morning, one of my servants reported that some white men were fighting in the woods; I repaired to the spot and saw six men, two of whom were fighting with swords. As I approached, the tallest of the two struck the other across the face with the blade, then parried and run him through. He fell, exclaiming "Gentlemen, I am killed," and expired in a few moments. The victor quietly wiped the blood from his sword with his handkerchief. Two of the men said: "Colonel, you have finished that Yankee; he is dead; come let us mount and go; these Yankees will look after their dead friend." A colored boy came with horses. The victor said, "Gentlemen, my friends are in haste to go; is there anything I can do for you? I hope you consider this matter has been settled honorably." The party rode off. I learned from an attending physician that the affray arose from a political quarrel. The victor was an officer in the rebel army, named Colonel McIver; the slain, Major Tomlins, of Vermont, late of the U. S. A. Volunteers. This is only one of the many duels occurring here. If a Northern man comes South, he must prepare to fight—he will have many opportunities."

AT noon of yesterday, smoke was discovered issuing from crevices of the two story frame residence of Samuel K. Rose, a Justice of the Peace, on the west side of Cutter street, between Clark and Hopkins, No. 219. The alarm was immediately carried to the neighboring engine-house, and through the efforts of firemen and citizens the fire was extinguished before it had much injured the premises. In the kitchen upon the floor, however, there was presented a truly horrible sight—the body of Mrs. Rose, from which life had fled before the destroying flames that had consumed her clothing and burned to blackness the flesh of her body, limbs and face. So completely had the fire done its work that the clothing was entirely consumed, and the body burned to a crisp. There was no witness of this shocking calamity. With windows and doors closed, the poor woman had been industriously engaged in preparing for herself and husband their noon meal, the table being spread in the dining room. It is reasonably supposed that in working around the kitchen stove, the fire, unperceived by her, had communicated itself to her dress, and that her first warning of danger she gained as the quickening flames scorched her limbs and leaped up to enfold her entire person in their terrible embrace.—*Cincinnati Commercial.*

IN A HURRY.—A curious marriage is reported to have occurred some days since near Bay City, Michigan, which reads like the wildest fiction. It seems that a farmer lost his wife by death, and that the said wife died early in the morning. The farmer did not appreciate being left alone in the world, and ere his wife's eyes had hardly closed in the sleep that knows no waking he decided to marry again. Hitching up his team, he takes in his servant girl and goes to Bay City to buy garments for the dead. While there he married the girl and returned home the same night with his second wife, so that by actual count he was not a widower twelve hours. The new wife appeared at the funeral the next day in deep black, and was one of the principal mourners over the body of the first wife.

A BILL has been introduced into the Legislature of New York State, by Mr. Stewart, to the effect that no non-residents of the State shall sell anything in New York city, on account of a non-resident, without having first obtained a license, for which $500 is to be paid. A penalty of $500 is declared for each offense.

GENERAL NEWS.

It is proposed by the State authorities of Pennsylvania to procure a full history of the services rendered by Pennsylvania regiments in the war to crush the slaveholders' rebellion, and as an interesting portion of that history, it has been suggested by Governor Curtin that the State Librarian collect photographs of all officers of such regiments, to be deposited in the State Library, in such a form as to be easily referred to and examined. In accordance with this proposition, the State Librarian now requests all such officers to send well executed card photographs of themselves, addressed to the State Library, and, where the officer has perished, that the friends of the gallant dead send such photographs. Each card to be carefully inscribed beneath the photograph with the name, rank, company and regiment in which the officer served.

WILLIAM B. ASTOR is projecting the erection of an immense hotel in New York City, on the square bounded by Forty-fifth street, Broadway and Seventh Avenue. The location has a very up-townish sound, but, though nearly four miles from the City Hall, the hotel, when completed, will not be as much ahead of the times as the Fifth Avenue Hotel when Amos R. Ano laid its foundations. Then the people who thought themselves wise laughed at the idea of putting stores on the ground floor of this hotel, because, said they, nobody but a crazy man can calculate upon renting stores "away up town so far." And this was less than ten years ago. Now, forsooth, Astor, who by no means is a fast crab in such matters, goes a mile or so higher up town to build his caravansera.

ON one of the New Hampshire railroads a charge of twenty cents extra is made upon all fares paid in the cars, a check being given for that sum. On presenting the check at the ticket office the money is refunded. The object of this is to stop the peculations of conductors.

THE western colleges, academies and seminaries are better patronized this year than ever before. Large numbers of the veteran soldiers are seeking an education. During the fall term there were said to be over forty of these army men in Wabash College alone.

SPECIAL NOTICES.

AYER'S PILLS—Are you Sick, feeble and complaining? Are you out of order with your system deranged and your feelings full of distress? Symptoms are often the precursor to serious illness. Some fit of sickness is coming upon you, and should be averted by taking timely the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the pulse move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and deranges its natural functions. Stop it not relieved, resist upon the first symptoms of derangement, by purifying general aggravation, suffering and derangement. While in this condition take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. This is true and so apparent in this trivial and common complaint is also true in many of the more dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangement of the natural functions of the body, they are rapidly and many of them surely cured by the same means. None who know the virtue of these Pills will neglect to employ them when suffering from the disorders they cure, such as Rheumatism, Dyspepsia, Dysentery, Bilious Complaints, Indigestion, Debauchery, Bilious Fevers, Inflammation, Congestion of the Liver, Costiveness, Constipation, Heartburn, Headache arising from Foulness and Suppression, when taken in large doses.

They are Sugar Coated, so that the most sensitive can take them easily, and they are surely the best purgative medicine yet discovered.

AYER'S AGUE CURE,

For the speedy cure of *Intermittent Fever, or Fever and Ague, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache or Bilious Headache, and Bilious Fevers, indeed for the whole class of diseases originating in derangement, caused by the Malaria of miasmatic countries.*

This remedy has rarely failed to cure the severest cases of the above complaints. Even in this great advantage over other Ague medicines, that it subdues the complaint without injury to the patient. It contains no quinine or other deleterious substance, nor does it produce quinism or any injurious effect whatever. Shaking brothers of the army and the West, try it and you will endorse these assertions.

Prepared by J. C. AYER & CO., Lowell, Mass., and sold by E. E. FARNESTOCK'S SON & CO., and by all Druggists. mh16.2m&4wF

RETROUVEY'S TURKISH JANDOLENIAN HAIR TONIC.

THE DRESSING AND RESTORER OF THE AGE

TURKISH BANDOLENIAN.

RETROUVEY'S TURKISH BANDOLENIAN. What can be more acceptable than anything that will beautify? It will restore Retrouvey's Tonic by stopping the hair from falling out, restoring its natural color, making it to grow in luxuriance and beauty, assist in putting it up according to the present style and fashion and keep it in place? This *Retrouvey's Turkish Bandolenian Hair Tonic* will do, and for proof we refer you to the person who has tried it. It is acknowledged to be the beautifier of the age, the only Hair Tonic and Restorer worthy of the name. In Turkey, in France, in England, in America—every where where the "Bandolenian" is known—it is pronounced the *se plus ultra* of Hair Preparations. Remember, it is free from all mineral poisons that are contained in most Hair Colors and dressings. It is the extract of many flowers and herbs, beautifully put up, and is perfectly safe to the ladies.

FINANCE AND TRADE.

WEDNESDAY, April 11, 1866.

Gold was a shade higher in New York to-day, being quoted a fraction above 1.35. It is thought by the "knowing ones" that while the premium may advance temporarily, at intervals, that it must, of necessity, go lower. The payment of twenty-two millions of gold on the 1st of May, most of which will remain in the country, will produce such a redundant supply that the premium may be expected to fall to about 1.20. The amount thus paid out, (says the New York *Commercial,*) will be equal to about a three month's supply for customs duties, while it is as likely that gold may come into Europe as that it may be sent there. On the 1st of May it is estimated that the Treasury will have on hand $40,000,000 of gold, exclusive of the amount on deposit; and as the subsequent receipts for customs steadily augment the stock in the Treasury, the public will refuse to believe that the Treasury will not sell at an early day. The same paper says:

"This expectation will constantly depress the premium, and will be quite likely to keep it, on an average, below the point at which the conversion of Seven-thirties is feasible. It would thus appear that the Secretary is likely to encounter a very stubborn difficulty in the way of the conversion of $820,000,000 of the short obligations."

The loan bill passed by the Senate on Monday in the form in which it came from the House, authorizing the funding into long loans of other Government securities, but restricting the redemption of currency to $10,000,000 for the first six months and $4,000,000 for each month thereafter. Whatever power of immediate effect this bill might have has been measurably anticipated, yet the further decline in gold yesterday was doubtless assisted by its passage. Its policy, at least, is in the direction of contraction, and that is much. The drift is towards resumption, and the Secretary will make all that he possibly can of his pre-existing as well as the power conferred by this bill. There can be further expansion; that the country realizes, and business will proceed accordingly.

—The customs demand for gold at New York last week was $3,000,000, while the Treasury office paid out only $63,140 for gold interest on the public debt. The specie shipments for the week were $206,000, which includes $191,000 in silver bars.

The total receipts from internal revenue for the week ending 7th instant was $7,179,068. The total receipts since the 30th of June, 1865, the beginning of the present fiscal year, foot up $251,066,635,79. Of this amount $75,502,854,1 has been received since January 1st, 1866.

—The payment of the direct tax by South ern States under the act of August 5, 1861, for the first quarter of 1866, ending March 31, were as follows: Virginia, $27,270,17; North Carolina, $37,310; South Carolina, $10,267,45; Tennessee, $10,000; and Arkansas, $15,220—total, $125,167,62.

—The Treasury of the United States holds the following securities, given by National banks: As security for circulation, $218,652,500; as security for government deposits in bank designated as depositories, $35,579,500—total, $254,232,000.

The Comptroller of the Currency last week issued $1,133,300 in National bank notes. The total amount issued since the National banks act went into operation is $235,872,500.

—The number of government depositories has not been increased during the week ending April 7. The only national bank authorized during like same period was the First National Bank of Helena, Montana Territory. The total number of national banks in existence is 1,645. National currency issued for the week ending April 7, $1,135,500; previously issued, $234,247,170; total to date, $235,382,670.

—Mr. Fessenden, in the Senate, on Friday introduced a bill to amend Section 21 of the National Currency act, which was referred to the Finance Committee. After repealing the provision that the amount of circulating notes delivered to each bank shall not exceed ninety per cent of the amount of the bonds deposited as seen ity for the redemption of the same, it limits to each association whose capital exceeds $500,000, but does not exceed $600,000, eighty per cent. of such capital; to such association whose capital exceeds $600,000, but does not exceed $1,000,000, seventy-five per centum of such capital; to such association whose capital exceeds $1,000,000, and does not exceed $2,000,000, sixty per centum of such capital; to such association whose capital exceeds $2,000,000, but does not exceed $3,000,000, fifty per centum of such capital; to such association whose capital exceeds $3,000,000, forty per centum of such capital; and it shall be the duty of the Comptroller of the Currency to retire and withdraw from circulation all worn or mutilated notes; and in case any association whose circulating notes are in excess of the limit herein prescribed, until the circulating notes of each association shall be within the ratio prescribed for its capital. Provision is also made for converting State to National banks, limiting their aggregate circulation to ten millions. Banks in States and Territories enjoying the least ratable proportion of national currency, may have the amount increased up to fifteen millions until the 1st of October, 1866, after which period any portion of the ten and the fifteen millions remaining not allotted shall be used for the organization of new banks. This bill, without aiming to farther correct the evils of the national banking system, takes a step towards preventing and curtailing excessive currency issues in proportion to the capital of the issuers, and therefore within its own limited scope it commends itself to public approval.

Finance and Trade in New York.

GOLD AND STOCKS.

NEW YORK, April 11.—Money continues easy at 5@6 per cent. Sterling Exchange active and firmer, at 107½; Gold firmer, opening at 135¾, advancing to 127⅝, and closing at 127⅝. Government Stocks, dull. Freights to Liverpool, quiet and heavy. The following were the principal sales of Stocks at the four o'clock open board: Quicksilver, 47; Western Union Telegraph, 96; New York Central, 99¾, 56; Erie, 74¾; Hudson, 106⅞; Reading, 103¾; Cleveland & Pittsburgh, 80; Chicago & Rock Island, 119⅝; Pittsburgh, Fort Wayne & Chicago, 90 ¼. The Railway list is steady; Missouri Sixes, 72½; Tennessee Sixes, 60; Ohio & Mississippi Certificates, 24½; California Sevens, 106; Mariposa, 20⅝; Atlantic Mail, 128; Pacific Mail, 190.

DRY GOODS.

The market to-day is quiet and dull, with a downward tendency, and buyers say it will go much lower. Woolen goods for the past few days have been somewhat firmer, but to-day they are weak. Prints are also weak to-day, but no change in prices so far. Bleached goods are more steady than anything in the market. Brown goods plenty, and holders want offers for them. Notions and fancy goods have fallen off considerably. Foreign goods, with the exception of linens and staples, are hard to sell. Auction houses are still offering large amounts of goods, and selling about one lot in five. PETROLEUM AND GOLD SHARES.

Petroleum and Gold Shares generally quiet with an improvement in Consolidated Gregory and Gunnell gold. The Honowack speculation has followed in the wake of Shade River and exploded. There was considerable stock sold out under the rule at 15@25 cents for the account of J. S. Swan & Co. and E. Southwick. The stock sold yesterday at 4.05. Bennehoff, 10.90; Oil Creek, 75; United States, 8,50; Atlantic, 3,50; Smith & Parmlee, 8.00.

MINING STOCKS.

The following are the prices of Mining Stocks bid in Boston to-day: Copper Falls, 44½; Franklin, 41½; Hancock, 21; Water Power, 30½; Isle Royal, 12; Minnesota, 12¾; Bay State 11½.

HARDWARE.

The Hardware trade is duller. Nails are selling at $6,50@6,62½. Scythes and haying tools are in demand. English files have advanced 10 per cent. owing to the strike.

Cincinnati Iron Market.

CINCINNATI, April 9.—There is a good market in pig iron, though holders display no anxiety to sell, and are still contending for full rates. Hot blast is held at $48@50 per ton for No. 2, and $52@55 for No. 1. Cold blast is quoted $62@70 per ton, according to quality. Bar iron is steady at 3¼@7c, for common and good charcoal. Horse shoes are dull at 8@9c, for Shoenberger's extra, and mule shoes 9@9¼ cents.

San Francisco Market.

SAN FRANCISCO, April 9.—Hong Kong dates are received to February 12th. They report the leading staples of import and export as being without material change. Red native wheat having appeared, there is little demand for foreign. Breadstuffs—Rice and Flour are steady. Mining Stocks are stronger.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, WEDNESDAY, April 11, 1866.

The general market was quiet and rather dull, notwithstanding there is a fair business doing in a retail way. Some few articles are in demand, and in consequence of light supply prices have advanced, but, generally, the tendency is toward lower rates.

GRAIN—Wheat is in better demand, but unchanged; sales of 1000 bush Club at $1,75; 2 cars dittto at $1,80; and 1 car prime Red Winter at $1,95. Barley is in better demand and firmer. Sales of 700 bush Oats at 48. Corn is scarce but unchanged—small sales from store at 65@70. Last reported sales of Rye at 85@85.

MILL FEED—More active but unchanged. Sale of 1 car Seconds at $1,10, and 1 car Middlings at $1,40.

FLOUR—Is quiet but steady, and prices are pretty well sustained. We now quote choice brands at $8,50@8,00 for Spring Wheat; $9,50@9,75 for half Spring and half Winter; and $10,50@10,00 for all Winter. Rye Flour is selling in small lots at $5¼.

PROVISIONS—Bacon is quiet and a shade lower; small sales at 13 for shoulders; 15@15½ for Ribbed Sides, and 20@21 for Sugar Cured Hams. Prime kettle rendered Lard is quoted at 18@18½, and Mess Pork at $28.

BUTTER—Is in demand, and with a light supply good to prime Roll sells very readily at 45@50.

EGGS—Scarce and in demand; fresh packed sell readily at 25.

SEEDS—Clover Seed is dull with small sales from store at $5¾@5½ per bush. Timothy seed is quoted at $3½. Flaxseed is in demand at $3¾.

SALT—Is dull and droopy; small sales from store at $2,00@2,05 per bbl.

CHEESE—Goshen is firm with regular sales at 25, and some some holders are asking 25½@26 cts.

POTATOES—Demand fair, market steady and prices are well sustained, ranging from $1,30@1,40 per bush, and $3,75@4 per bbl.

DRIED FRUIT—Peaches in light supply and a shade higher, and we now quote at 17 to 22 for quarters and halves. Apples range from 14 to 16, as to quality.

HAY—There is but very little coming in from the country at present, in consequence of the bad condition of the roads, and prices are a shade higher. We now quote at $20 to $25 per ton, the latter figure only for prime Timothy.

BEANS—Dull but unchanged; small sales from store at $1,75@2 per bush.

HOMINY—Is selling in a small way at 3½@3¾ cts.

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, WEDNESDAY, April 11, 1866.

CRUDE—The demand for Crude was again light to-day, and with but comparatively few transactions reported, the market is dull and weak, although prices remain as last quoted, 13, bbls returned, and 18, bbls included. Sales of 100 bbls at 13; 165 at 12, and 900 at 13. Buyers and sellers are still apart in their views, the former still insisting for concessions, to which the latter seem unwilling to listen, and until the market becomes more settled, it is altogether likely that transactions will be very much restricted and business retarded.

REFINED—There is no improvement to note in the demand for bonded oil, and what is worse still, prices are steadily receding. For immediate delivery in Philadelphia, 29 cents may be worth filling to fair quotation, and 39¾@40 for May. It is said that there was a sale of one thousand barrels for May, at 39¾. For June and July deliveries, there seems to be little or no inquiry, and in the absence of sales, we omit quotations. Free Oil is dull, and prices are entirely nominal.

ARRIVALS—The following is a partial report of the arrivals to-day—we were unable to get all that came in.

Butter quiet at 25@45c for Ohio, and 19@60 for State. Cheese dull at 16@22c.

St. Croix Lumber Business.

A Stillwater correspondent learns from gentlemen thoroughly competent to determine, that the amount of logs cut during the past winter in the various camps is estimated at about 50,000,000 feet. There is not the remotest doubt in regard to a sufficient stage of water this spring for "driving" purposes, so that this amount will easily come down. Add to this the 25,000,000 feet of old logs which have been left in the various streams during seasons of low water, but which can now be brought down, and it looks as though we had logs for the coming season. The same correspondent says that there will be a much larger amount of lumber manufactured than in previous years.—*St. Paul (Minn.) Press.*

Chicago Lumber Market.

CHICAGO, April 9.—There is a good demand for shingles afloat, and the market is firm. Sales include a cargo from Manitowoc, at $4,75 for sawed and sawn together, and $4 for cedar shingles. Also, 300 m. cedar shingles, ex schooner Challenge, from Sheboygan, at $5,75; 5,000 split cedar posts at 10c; and 450 m. sawed and shaved shingles at $4,75, ex schooner Webber, from Manitowoc. Also, 8,000 split cedar posts, ex propeller Backus, at 9c each. We have no sales of lumber to report by the week, but there is a good demand. Common boards, fencing, joists, and scantling are a little lower in the yards. Upper qualities are steady.

Chicago Market.

CHICAGO, April 11.—Flour firm. Wheat steady, at $1,25@1,25½ for No. 1. Corn steady, at 46@46½c for No. 1. Oats firm, at 76@76½c for Fresh No. 1, and 23@24c for No. 2. Provisions dull; Mess Pork at 25c. Lard at 17½c. Receipts are 5,000 bbls. flour; 10,000 bush. wheat; 19,500 bush. corn; 9,500 bush. oats. RIVER, WEATHER, ETC.

The river continues to recede steadily at this point, with scant nine feet in the channel by the Allegheny marks last evening. The weather continues clear and pleasant, and all that could possibly be desired for the transactions of out door business.

The Grey Eagle arrived and departed for Parkersburg, and the Bayard, from Parkersburg, may be expected at the wharf this morning.

The Leonidas, in command of Capt. M. A. Cox, arrived from St. Louis on Tuesday evening, with an excellent trip. She had good trips both going and returning, which is certainly very encouraging in these days of dullness and stagnation.

The Columbia got off for St. Louis yesterday forenoon with an excellent trip, including a large number of passengers, the majority of whom are emigrating to the west.

The Financier, Capt. Darragh, had not got off for New Orleans when we left the wharf. If she did get off last night, she will leave to-day without fail.

The Lochaire arrived from Oil City since our last report, and the Belle cleared for that point yesterday afternoon. Business continues rather dull on the Allegheny, and besides, the water is getting low.

The Kate Putnam and Nora were advertised to leave Cincinnati for Pittsburgh on Tuesday and the Nashville and Wauanita are loading at St. Louis for this city.

The Kate Robinson, Capt. Robinson, with J. Wherry in the office, is filling up steadily for the Missouri River, and will soon be ready to take her departure. She will be followed by the Nile, Capt. W B. Haslett.

The Louisville *Democrat*, of Sunday, says:

At a meeting of the pilots, yesterday, the association resolved to let every pilot belonging to the association set his own price as to wages. This is a good move, as pilots heretofore have been charging high prices for steering. Business got so dull that steamboatmen couldn't afford to pay some of them their prices. It is stated that one of the female passengers on the W. R. Carter was delivered of a child while the steamer was sinking, and that when the boat went down she was seen holding it above her head, as if striving, with true maternal instinct, that though she must die, her babe should die the last.

The Armadillo left St. Louis for Missouri River on Monday; the Wauanita left the same day for Pittsburgh, and the Silver Lake was expected to arrive there on Tuesday from Pittsburgh.

The importer, Capt. Noss, will at once commence loading for St. Louis, and she will be ready to leave on Saturday.

The Delaware, Capt. R. W. Harton, is next on the list for the Upper Mississippi, and will be ready to take her departure about the latter part of the week.

The St. Louis *Republicon*, of Tuesday, says:

"We hear it stated that the fire on Saturday morning was caused by the cook of the Nevada attempting to light his fire in the cook-house by the aid of coal oil. This cannot be, as the cook-house was situated on the boiler-deck and the fire originated in the engine-room. But we would say to all steamboat men "throw away your coal oil lamps." Tubular boilers were far more safe. We know of three or four of our oldest and most experienced steamboat Captains who have discarded the use, entirely, of coal oil."

We clip the following from the Louisville *Courier* of Monday;

On the falls there were five feet eight inches water in the pass, down the Indian chute, and over five feet water up round the turn for ascending boats. The famous towboat Alps, from Memphis, tried that chute successfully bound for Pittsburgh, and the Mary T., once a famous coast packet, built to ply to New Orleans, Donaldsonville, and Bayou Plaquemine, having been converted into a towboat, was trying to ascend the chute last evening, bound for Pittsburgh.

ON A LONG TRIP.—A little boat called the Miner came in from Pittsburgh yesterday, en route for St. Louis, Fort Benton and the Gulf of Rocky Mountains. After traversing the entire length of the Ohio, from its source to the mouth, 500 miles, she then has to ascend the Father of Waters to St. Louis, 180 miles; thence to the wild Missouri, up to its farthermost navigable limits to Fort Benton, some 3,000 miles. Then the vast perils and hardships of the trip begin. The final destination is the Point of Rocks, 600 miles beyond Fort Benton. She is laden with railroad iron and miners' materials.
